

## **THE ROCKET CLUB Propels Leaders Into the Future**

Do you consider yourself to be a leader who combines intellect, creativity, and passion with a vision that involves shaping the future of business and the world? Or perhaps you qualify as a 'next generation leader' (or maverick!) in business, politics, the arts, science or philanthropy? Perhaps you have one or two friends or colleagues who fit this description?

THE ROCKET CLUB is a new, private, exclusive network that has been established as a joint venture between international CEO Mentor, David Carter and Executive Coach, Danusia Malina-Derben. Between them, they have mentored and coached more than 500 visionaries and influencers from all over the world.

Members of this dynamic new network will have the opportunity to meet and 'mindstorm' with other top 'movers, shakers and shapers' to discover solutions to problems faced by themselves, their enterprises and society at large. The Club provides access to 'genius' at the highest levels, in the form of thought leaders, experts, pioneers and 'gurus' who have future-facing perspectives.

One of the top values listed in THE ROCKET CLUB credo is 'personal growth'. Why? Because, as The Mentor, David Carter explains, *"We need to raise our levels of awareness to elevate our performance. This holds true in both our professional and personal lives. If the most important members of an enterprise are not growing and bettering themselves, chances are that their enterprises are not performing optimally, either!"*

THE ROCKET CLUB launches in 2012. Interviews are taking place now and membership will be limited to approximately 100 individuals. So if your eyes, mind and heart are turned skyward, get ready to taste flight!

For details of the ROCKET CLUB'S benefits and raison d'être, as well as a link to nominate someone for membership, visit [www.davidcmcarter.com](http://www.davidcmcarter.com)
